

an InvoiceCloud Service

Offer Quickpay and Make Paying Bills More Convenient for Your Customers

Just like you, your customers are busy. We all struggle with competing priorities, time constraints, and the hustle and bustle of everyday life. That's why it's essential to offer convenient payment options that exceed your customers' expectations.

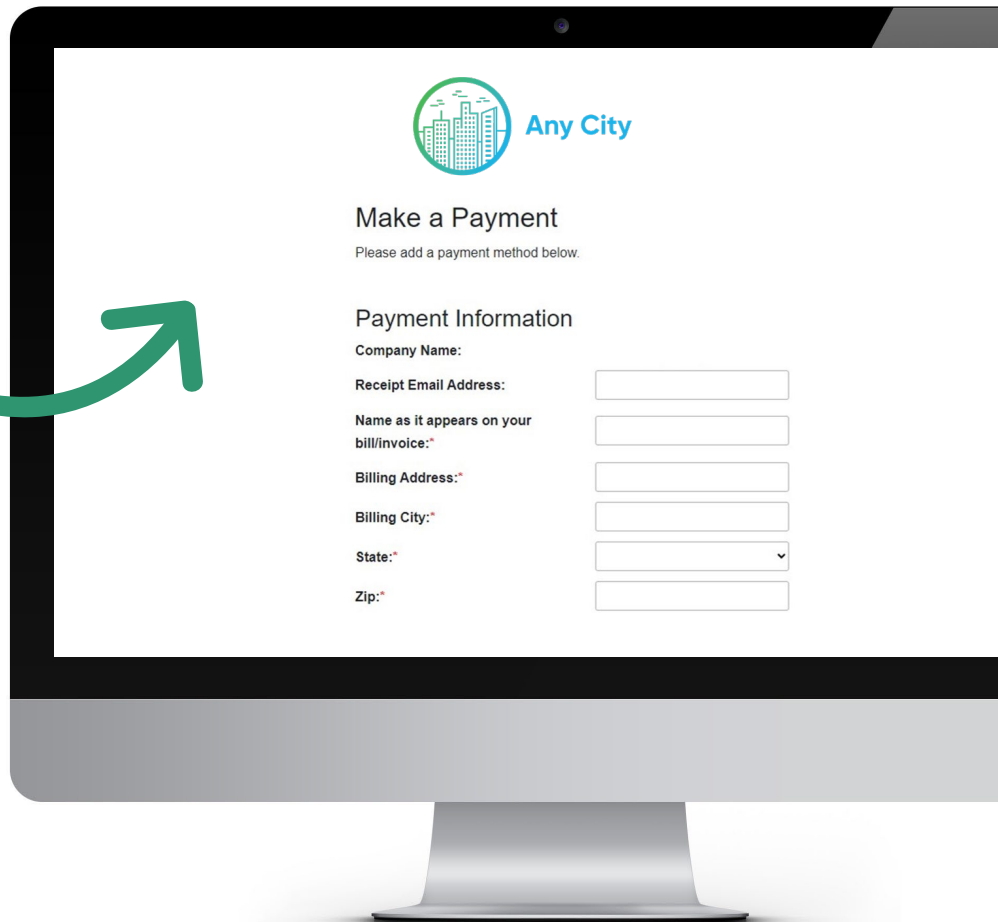

Using PSN's Quickpay, customers can submit payments on your site, without having to log in or set up an account. It's that simple.

PSN Quickpay ensures that customers who want to avoid creating an account or forget their password have an easy and convenient way to pay their bills online.

To learn more about enabling Quickpay for your customers contact your Service Account Manager or email SAM@paymentservicenetwork.com.
